

Important meetings can happen anywhere. So when mobility, accessibility, and accuracy are a necessity, professionals in all walks of life depend on the QO Electronic Copyboard on casters. The movable free-standing electronic copyboard can be shared by many users. Installed with lockable casters, the free-standing copyboard rolls easily from place to place.

The board reverses to the other side for double the writing space. Write on both sides by simply rotating the board and locking it into position. Two full surfaces, front and back, may be used and copied.
