VISITORS MAP

New Mexico

City of Natural Lakes

Park Lake

Welcome to the City of Natural Lakes!

Here amid the red mesas of northeast New Mexico, our town is a startling oasis with an array of spring-fed lakes which provide recreation for visitors and locals alike:

- **Blue Hole** is famous for scuba diving.
- **Santa Rosa Lake State Park** is excellent for boating, water skiing, and fishing.
- **Park Lake** has fun for the whole family with swimming, pedal boats, waterslide, and playground activities.
- **Perch Lake** is the place for swimming, fishing, and diving.

It's well known that Santa Rosa offers cool things for water lovers. But history buffs and shutter-bugs looking for unusual shots will also be rewarded in our community. Be sure your camera's charged before you set out to discover our past and see all the new development initiatives we have going:

- **Historic Route 66** is still alive with an auto museum and well-preserved neon from the '30s to '60s.
- **MainStreet/4th Street** is being brought back to the glory of the railroad era.
- **Ilfeld Warehouse**, once a center of regional commerce is being restored for new uses.
- The completion of the **Courthouse Square** landscape project will return many community activities and events to MainStreet and the historic Court House will once again find use as the center of county government.

If you have questions on finding your way around Santa Rosa, ask the experts at our visitor center, located temporarily in City Hall at 244 South 4th Str. In 2009 it will move to the refurbished Ilfeld Warehouse on Main Street by the railway track.

Enjoy your visit!
